TARIFF (REVISED APRIL 7, 2020) Appendix B

Tilton-Northfield Water District Tilton & Northfield Aqueduct Policy Regarding Sprinkler/Main Drain/Fire Pump Testing

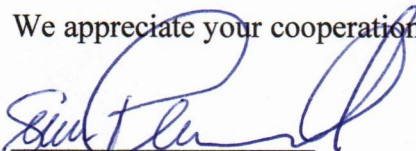

Any situation that may affect the quality and pressure of the water we provide our customers must have Tilton & Northfield Aqueduct Co., Inc. (TNAC) personnel at your facility for supervision and compliance.

AS OF AUGUST 15, 2019 it is the policy of the Tilton-Northfield Water District (TNWD) that all customers who must perform sprinkler, fire flow and main drain testing of their equipment will be subject to the following:

1. TNAC/TNWD must be notified 15 business days in advance of any testing on site. An Authorization for Testing form will be sent upon request to the owner specifying the date and time. This will be detailed on the Authorization for Testing form to be signed by both parties for their record.
2. All testing must be scheduled after the third week of April or after the 2nd week of October. This is in conjunction with the District's semi-annual Hydrant Flushing Program and helps facilitate clean-up of any dirty water created by the testing.
3. Specifically, large fire pump flows and some main drain testing, are dependent upon their physical location within the Water District System. They will only be scheduled within a 3-week period following the completion of hydrant flushing to be determined by the District Superintendent.
4. Fines will be charged for non-compliance along with the cost of our employees opening hydrants to clean up the water supply for our users, and for the cost of lost water in doing so.
5. The vendor that is subcontracted to do your work should be in contact with our office to confirm the schedule and give our office a contact name and phone number of their personnel on site.
6. In addition, an increasing fine by frequency will be assessed if these procedures are not followed:
 - a. 1st Incident without notice - \$400.00
 - b. 2nd Incident without notice - \$800.00
 - c. 3rd Incident without notice - \$1,200.00

These fees are in addition to the fee for man hours and lost water.

We appreciate your cooperation in this matter.
